Premium Collection

The objective of the Premium Payment Framework is to establish rules for premium payment in General insurance. A copy of the PPF is available [here](#).

What do I do if I have not collected premiums for policies after the warranty period ends?

For Personal lines policies or Bond under Payment before Cover Warranty, the policy shall not be in force unless premium is paid to the insurer or intermediary on or before the inception date of the policy or Bond.

For Commercial lines policies under Premium Payment Warranty, the policyholder is required to pay the premium due under the policy in full within the warranty period, 60 days from the date of inception of the new policy,

renewal policy or applicable endorsement. If this warranty is not complied with, then the new policy, renewal policy or endorsement is automatically terminated from the expiry of the 60 day period and the insurer is entitled to a pro-rata premium for the 60 day period they have been on risk.

Intermediaries' responsibilities

- The intermediaries must notify the policyholders immediately by email and/or mail, of the cessation of cover, copied to the insurers.
- Intermediaries are required to notify the insurers of the policyholders who have breached the Premium Payment Warranty within 5 working days of the breach. Please inform your designated credit controller or email to libertycollection.sg@libertymutual.com stating your agent code and the details of the policy.
- If the intermediaries notify the insurers within 5 working days of the breach, the intermediaries will not be liable for the collection of the time on risk premiums.
- If the intermediaries do not notify the insurers within 5 working days of the breach, then the intermediaries will be liable for the collection of the time on risk premiums.
- The payment of any claim is **subject to no outstanding premiums** due from the policyholder.
- Policyholder may **offset the claim payment** with an outstanding premium subject to having the legal right offset.
